
Machine type: Heavy-Duty Vertical Press

Model: KVCD-5000 x1200 x150-140K

Pictures for reference only.

Work dimensions:

Timber infeed length: 5000mm

Timber width: 1200mm

Timber thickness: 150mm

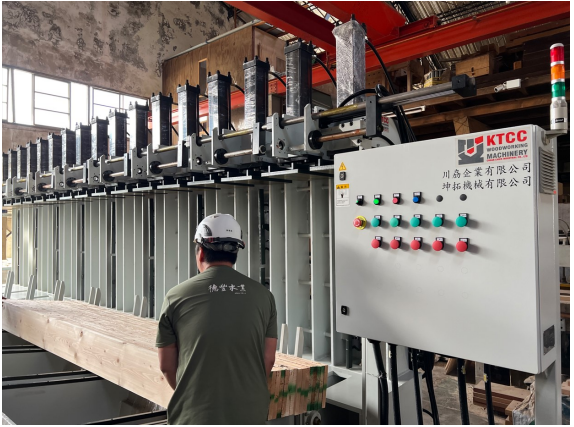

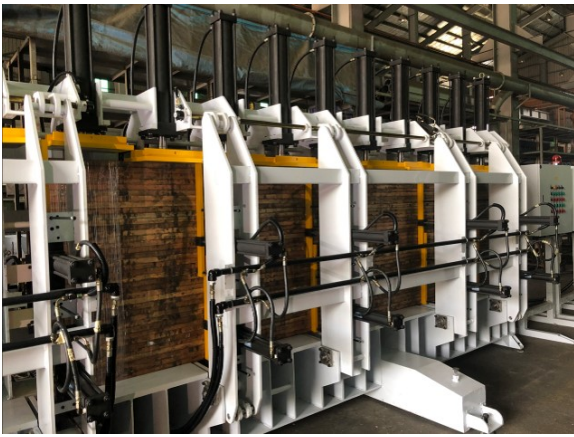

Specification

I. Heavy Duty Vertical Press

KVCD-5000 x1200 x150-140K

1 Unit

- Ultra heavy-duty design vertical press.
- Number of press bed: 5000mm.
- Heavy-duty type vertical press.
- Convenient downward-opening door for easier loading and unloading.
- Hydraulic operated directional valve: Electrical.
- Hydraulic door lock system.
- PLC controlled system.
- Press bed size: 5000mm x 1200mm x 150mm
- Main hydraulic cylinder: D80 x80mm ST
- Side hydraulic cylinder: D40 x 150mm ST
- Door lifting hydraulic cylinder: D63.
- Door lock hydraulic cylinder: D40.
- Outfeed pusher hydraulic cylinder: D40.
- D80 cylinder with high pressure open/close valves.
- D40 cylinder with high pressure open/close valves.
- Hydraulic control system: 1 Units.
- Hydraulic motor: 15HP.
- Maximum hydraulic pressure: 15 kg/cm²

Picture for reference only.

Technical data:

- Four sides moulder infeed timber ($\pm 0.2\text{mm}$) with 90 degrees right angle.
- Timber moisture 8 - 12 %

To be provided locally:

- Operating voltage : 415 V , 50 Hz 3 Phase.
- Constant voltage (voltage deviations max. 5 %)
- Total motor power: 11.25 kw
- Hydraulic oil: ISO 46 (Not included)
- Skilled operating and maintenance personnel
- All engineering works or modifications required during installation.
- Equipment for unloading and machine setup.
- Power connection, pneumatic connection, dust collector system if need.
- Material needed for test run.
- Modifications or changes related to local safety regulations.
- KTCC technician's security and required services.

Sales conditions:

- Packing Size: Loading on 40' HQ container* 1
- Term of payment: 30% deposit. 70% before delivery.
- Warranty: 12 months in single shift operation.
- Validity: 30 days.
- Delivery time: 120~150 days after receipt deposit. **(To be confirmed with the order)**
- Delivery terms: FOB Kaohsiung Taiwan.

A. KVCD-5000 x1200 x150-140K

- Ultra Heavy-duty glulam press machine.
- Vertical type press machine.
- Convenient downward-opening door for easier loading and unloading.
- Press bed: L5000mm x W1200mm x T150mm.
- Maximum hydraulic pressure: 15kg/cm²
