

## Vacuum Membrane Press - WV3300A-2Z(Full Automatic)

Model	WV3300A-2Z(Full Automatic)
Worktable size	3300×1300×60mm
Max Work piece size	3100*1100mm
Total power	33Kw
Vacuum	-0.1Mpa
Overall dimensions	9800×2000×2000mm
Package size	3800*2000*2000mm
Weight	1800kg

### Function

It can be used to cover PVC on the surface of the craft compound door, furniture, cabinet and sound box and to cover veneer and heating transfer membrane on single side of the door panel and furniture with the silicon membrane provided by our company. Compared with WV2300C-2, it doubles the working efficiency.

WV2300A-2Z is fully automatic model

### Characteristics

1. Stainless heating elements can heat evenly and improve the efficiency.
2. Double layer thermal preservation and full sealing design can save energy.
3. Special steel plate worktable is proof against high temperature and corrosion.
4. Vacuum pump of high quality is efficient, stable and durable.
5. Advanced digital technology can make sure of high level of automation and easy operation.
6. All kinds of products can meet different clients' needs.
